**PACIFIC**
**BUSINESS COLLEGE,**
MECHANIC'S INSTITUTE,
POST STREET, Between Montgomery & Kerney
SAN FRANCISCO,

The importance of a thorough and practical business training for those who contemplate entering the mercantile profession, is too well known to require much comment. Without such knowledge, the young merchant will become involved in many embarrassments which might otherwise be avoided. The youthful aspirant will find himself surrounded by inextricable difficulties, both in seeking a situation, and in the discharge of its duties after employment is obtained. To have received instruction at a mercantile college, endorsed by the leading merchants of the city, is more effective in winning the favor and confidence of a business firm, than all the letters of introduction which friends can give. The

**Pacific Business College**

maintains a reputation for thoroughness and systematic training, far surpassing that of any other similar institution on the Pacific coast. Most of the leading merchants of this city have employed graduates from this College, and bear testimony to the practical efficiency of the course here prescribed. The system of actual practice embraces all the varied operations of real business. A Ladies' Department has lately been added to this popular institute. This spirit of enterprise cannot fail to draw forth the well-wishes of the public.

Address for all information,
VINSONHALER & DE LAGUNA,

**A CARD**

We the undersigned, merchants and business men of San Francisco, California, are at the present time, employing men who have completed the prescribed course of study at the Pacific Business College, and we take pleasure in stating that we have found them well posted in accountantship and the general principles of business, showing conclusively that they have been subjected to a thorough drill in those important matters, by experienced and competant instructors.

We cheerfully recommend the College as being in our opinion, an institution of intrinsic merit, and well worthy of the confidence and support or the community.

GRANT SONG.

*Tune—Wait for the Wagon.*

Come, fill your glasses, fellows,
And stand up in a row,
On a Presidential drinking,
We are going for to go;
Let us trample down all party ties
Beneath our love of right,
And proudly claim Ulysses Grant
As Cap.ain of our fight!
So, for President Ulysses
Let every glass be bright—
May he rule the country he has saved,
And God defend the right!

In the world to-day no prouder name
Is borne on any breeze,
And with Grant to steer the ship of State,
Our flag shall ride the seas;
No, "Dominion" shall be the north of us,
And south of us no foe—
Our stars and stripes in the Canadas,
And likewise Mexico!
For with President Ulysses
Will be few who care to fight—
May he rule the country he has saved,
And God defend the right!

His hand is soft to meet a friend,
And mailed to meet a foe;
He is the Missis-ippi River horse,
Resistless as its flow;
And our Brethren of the beaten State—
These "aliens" of to day—
Will find a generous hand held out
When Grant has come to sway!
For generous is Ulysses
To the men who felt his might—
May he rule the country he has saved,
And God defend the right!

So boys, a final bumper,
While we all in chorus chant—
"For President we nominate
Our own Ulysses Grant!"
And if asked what State he hails from,
Our sole reply shall be.
"From Appomattox Court House,
With its famous apple tree!"
For 'twas there to our Ulysses
That Lee gave up the fight—
Now, boys, "To Grant for President,
And God defend the right."

—*Private Miles O'Reilly.*

WOMAN is mostly of the *fee-male* gender, except a few that want to vote. They were made like musketoes, to bother man also to spend his money for him. They suffer mucnly and toothache is their main holt. A woman who can go a week without a biled rag wrapped around her chops or cotton in her ears, would do for a cornerstone for a new Museum. They have been known to faint and gin clean out when they have a nice soft place to fall into. Without "wimmen" there'd be no heroines nor sheromes, no novels with pictures of fatal rescues, no biled pies, no gingerbread, no one cow's milk, no *sass stews* or *broils*, and no need of curtains when a feller goes to bed. Wimmin, in our generation, might be better, but she couldn't possibly be worse. Just take a woman of to day, or yesterday, or last week, or even last summer, that has a sunny infant suffering with an attack of brown scollops or lobsterina and requires nursing, rocking and paregoricing every fifteen minutes, hourly, whose wibble body is two and a half feet of suffering humanity, and requires shampooning with cod liver oil every few once in a while's, and ask her to go to a "matinee" when her hubby is at his business, and I'll bet a pint of biled rice against two yards and a half of Nicolson pavement, with tar onto it, that she'll leave that are suffering cradle behind her, and get on her blue or Bismarck fixings, and matinee all that afternoon. Her coat of arms is, the field is stable, two fellars rampant, balancing two poles no their chins, a fellar on top of each pole rampant; both poles withdrawn and the fellars stay there until the bell rings. Motto, Excelsior.

Just let a woman female gal of the human species see a picture on a fence, pasted on with a half barrel of soap flour glue of a green rhinoceros in a tub of red water, to be exhibited on a Monday, and if there ain't four shillings worth of feed less on the table that night, or that day's washing put off, I hope my corns will threaten rain a month. If they'd let lines to Alfred or lines to Augustus alone, and attend more to clothes-lines, things would be better and more of it. There ain't one gal in fifty that ever rinsed her hands in bread-dough, or knows any more about making biscuit than they do about cutting a wart on a cangaroo's hind leg. For sucnly I give the following recipt, hoping that by strict virtue and attention to business they may prosper, to wit, viz: To dress a daughter of Eve for the table. Have the body well soaked in *luke*-warm water (*Matthew*-warm water won't answer), then take twelve yards of clean calico, with nice pictures of roses and sich like onto it, cut it into strips, sew the strips up sideways and breadthways, season well in the jints with gusseta, add half a pint of tucks, sprinkle with hooks an' eys and frills, pour on a layer of buttons, with half a quart of starch. It is better to have the starch goreing, put the whole in cold "biled" water, let it bubble to bubble 'till a Bismarck colored scum rises, then apply it to the body all over. This makes excellent dressing, and a gal looks 'piously well in it, it don't hurt the thing to have a show of white embroidered stuff sticking below the bottom; also two nice button gaiters help as a seasoning.

How to cook a bean. Buy a bean, bathe it well, put it in twelve quarts of stenched river water, (if you havn't got a river, better buy one as they are handy to have), bile it six hours by an averdupois clock, take it out and wipe it thoroughly dry with a soft towel—an old shirt won't answered—lay it on its northeast side about two degrees sow-sow westerly; bore a hole gently in each end, abstract the "inards" very quietly without mussing very much; then stuff one end with soft biled rice, and the other end with rice "biled" t; the end that pints toward Jersey City should in all instances, except in cases of extreme hemorrhage be stuffed first; then take the Coney Island side of the shell off gently; then the Williamsburg side carefully, so the Williamsburg people won't know it then sweeten with salt, and it will taste so much like rice you'd never dream it was a bean.

MURDER.—On Saturday of last week the body of a Mexican named Jesus Castillo, was found buried in a well on Tule river near the farm of Mr. Jesse Lewis, with his head split open and nearly severed from his body, supposed to have been done with an axe. The circumstances that led to the discovery, as we have them, are as follows:—Castillo's mysterious disappearance and the woman having taken up with another Mexican, and moved her quarters, caused suspicion, and upon being asked as to the whereabouts of her husband she could give no satisfactory answer, when search was made with the result above stated. The woman and her paramour, we believe, are in jail. Since the above was in type we learn by report of the Coroner's jury that there were three persons concerned in the murder: The woman Rosaro, Jesus Maria Luna and Jesus Voi.—*Visalia Delta.*

A LITTLE girl was lately reproved for playing out doors with boys, and informed that being seven years old, she was "too big for that now." But with all imaginable innocence, she replied, "Why, the bigger we grow the better we like em."

A NEW TELEGRAPHIC CABLE TO CUBA.—It has already been announced that steps were taken to lay a new ocean cable from the southern point of Florida to Cuba, and we learn that the new cable, which was made in England, is completed, and will be laid during the present Summer. The cable which was laid last year, and commenced working on the 7th of September, has proved to be a pecuniary success beyond the anticipation of its projectors.—The receipts at the office in Havana have averaged about $5,000 in gold per week for some time past, and as the communication with Cuba by telegraph becomes better known to Europe, the business will doubtless increase. Vessels going to the Gulf of Mexico from Europe or from the States, now frequently call at Key West for orders. It has been suggested that the War Department should at once place the Dry Tortugas and Fort Taylor in telegraphic communication with the main land, which could be done at small expense. The London and French Lloyds have called the attention of European shippers to the importance of Key West as a port of call.—Already the cable has nearly as much work as it can do, and independent of this fact it is desirable to have another cable laid lest communication should be interrupted by the breaking of the one now in operation. The new cable is constructed after the most approved plan, and is of three sizes, varying in strength and bulk according to the strain to which they will be subjected—the largest size being near the shore. The cable will be paid out from the ship Narva, the same that laid the one last year, and Sir Charles Bright is to superintend the laying.

The proposal to lay a cable from the Isthmus of Panama to Cuba, and thereby establish communication between Panama and the United States and Europe, has met with great favor from business men both in this country and in England, and the stock will doubtless be rapidly taken up as soon as the organization of the company is effected. The capital of the company is to be based on the cost of the cable, and soundings are now being made to ascertain the probable cost.

FEMALE OPERATIVES.—It is well worth while to note the gradual advancement that appears to have been made in the extension of the field open to female effort, and gratifying to be able to believe that, as old prejudices die away and the capabilities of this class of operatives become better understood and appreciated, they may rise to the comparatively independent position now occupied as workmen by the sterner sex.

The number of female operatives, as compared with that of men, in New York city, was ascertained some years ago to approximate the ratio of thirty-eight to one hundred; but of late has doubtless increased, owing to the number of new occupations which of late have made available to them, or which they have more largely followed, and among which may be named printing, engraving, photograph coloring, and telegraphy. As compositors they have proved very successful, and earning from $11 to $12 per week, being paid the same per one thousand ems as men.

They are even employed at press work, for which they receive an average of $6 per week; and also as binders, book-sewers, and gilders, for which the wages vary from $5 to $10 a week. In each of these occupations, it is said, with apparent reason, that they are steadier and more reliable than male operatives. As engravers, women, if skilled, can earn about $20 a week; but this is subject to the serious drawback of their being no certainty of continuous employment. Among the few branches of of work in which female operatives meet with no direct competition, may be mentioned the somewhat laborious one of burnishing silver and gilded ware, at which they make from $8 to $9a week.

The clothing business and the manufacture of corsets, hoops, etc., probably employs the larger proportion of labor of which we are speaking, and the wages paid may be said to average about seven dollars. As a favorable contrast to this low rate of compensation, it may be mentioned that competent saleswomen receive much higher wages, there being one or two instances in which it is said that a salary of $5,000 is cheerfully given, but it must of course be understood that the recipients are persons having great experience and capable of controlling a circle of customers.

It should be a subject of congratulation that among our people the demand for labor is so great that ndile of the baleful results that are said to have taken place in England from the introduction of female labor are to be feared, for, instead of permanently lowering the average of wages, it may be said to liberate an increased proportion of male workmen for the heavier and more arduous classes of industry. Let employers facilitate the entrance of females into any field of employment for which their strength is fitted; let inventors reduce the drudgery of laborious occupations, until such are brought within their capabilities of performance; let the thoughtful ones of the community at large ponder the subject, not merely as a passing topic of remark or newspaper comment, but seriously, as one of the most important of all industsial questions of the time, and perhaps some day or other the harsh lines of trade may be swerved and bent until the wages of women shall approximate more nearly and, we may add, more justly to those of men.—*American Artisan.*

MORE IRISHMEN WANTED.—the *Alta* of Sunday last suggests that Fenians, instead of wasting money on useless invasions of Canada, "should set out to transport their relations to the United States, where no political tyrany, no monopoly of soil, will oppress them." It further says:

"If a million emigrants should leave the Green Isle every year, the British Parliament would be frightened, and there would be a universal demand among the Orangemen for concessions to which there is now universal opposition."

The *Alta* is greedy. Wouldn't less than a million Irishmen a year be sufficient for the wants of the United States. Say one hundred thousand.

We are coming, Uncle Sam-u-el,
One hundred thousand more.

What grief—what consternation—what regret, will fill the British Parliament when they see the Last of the Irish depart from that nice little island!

The United States—represented in this case by the *Alta*—calls upon the Fenians to bring over all their relations: their mothers, their fathers, brothers, sisters, uncles, aunts and cousins, even unto the fortieth and fiftieth degree. The present need of the United States is Fenians and the relatives of Fenians; and rather than not have them, the *Alta* would gladly see the Emerald Isle depopulated. If this should come to pass, then would the British Parliament humbly petition the United States Government to send back, one—just one—for a specimen.

Well, well, let them come—anything to vex John Bull. One million a year isn't many.—*Figaro.*

STICKNEY'S Circus will be in town next Monday evening.

MOZART'S OXEN WALTZ.—Mozart was engaged in arranging one of the most beautiful airs in an opera he was composing, when the butcher called for his pay which had long been due. In vain his wife endeavored to attract the attention of the wrapt artist, who scribbled away, utterly unconcious of her presence.

She ran down stairs with tears in her eyes, telling the butcher that her husband could not be spoken to, and that he must come another time. But the man of blood was not easily to be daunted—he must have his bill settled, and speak with Mozart himself—and he would not send him another ounce of meat. He ascended the stairs. Mozart, distantly conscious that something had transpired in his presence, had continued pouring the effusion of his fantasia on paper, when the heavy footsteps resounded in the hall. His stick was at hand. Without turning his eyes from the sheet, he held his stick against the door to keep out intruders.

But the steps were approaching. Mozart, more anxious, hurried as fast as he could, when a rap at the door demanded permission to enter. The beautiful effusion was in danger of being lost. The affrighted composer cast a fugitive glance at his stick—it was too short. With anxiety bordering on frenzy he looked around his room, and a pole standing behind a curtain caught his eye; this he seized holding it with all his might against the door, writing like a fury all the while. The knob was turned, but the pole withstood the first effort. A pause succeeded. Words were heard on the stair case and the intruders renewed their efforts the second time. But the strength of the composer seemed to increase with his anxiety. Large drops of perspiration stood on his forhead. Stemming the pole against his left breast with the force of despair, he still kept out his visitors. He succeeded but for a moment—the delightful air was poured upon the paper—it was saved!

"Mr. Mozart," said the butcher.

"Halt! halt!" said the composer siezing the manuscript and hurrying toward the piano forte. Down he sat, and the most delightful air that was ever heard responded from the instrument. The eyes of his wife and even of his butcher, began to moisten. Mozart finished the tune, rose again, and, running to the writing desk, he filled out what was wanting.

"Well, Mr. Mozart," said the butcher, when the artist had finished, "you know that I am to marry."

"No, I do not," said Mozart, who had somewhat recovered from his musical trance. "Well, then, you know it now, and you also know that you owe me money for meat."

"I do," said Mozart, with a sigh.

"Never mind," said the man, under whose blood-stained coat beat a feeling heart; "you make me a fine waltz for my marriage ball, and I will cancel the debt, and let you have meat for a year to come."

"It is a bargain," cried the lively and gifted Mozart; and down he sat, and a waltz was excited from the instrument—such a waltz as the butcher never before heard.

"Meat for a year, did I say!" exclaimed the enraptured butcher. "No! one hundred ducats you shall have for this waltz; but I want it with trumpets, and horns and fiddles, you know best—and soon, too!"

"You shall have it so," said Mozart, who could scarcely trust his ears, "and in one hour you may send for it."

The liberal-minded butcher retired. In an hour the waltz was set in full orchestra music. The butcher returned, was delighted with the music, and paid Mozart his one hundred ducats—a sum more splendid than he had received from the emperor for the greatest of his operas.

It is to this incident that the lovers of harmony are indebted for one of the most charming trifles, the celebrated "Oxen Waltz"—a piece of music still unrivalled.

CURIOSITIES OF AN ORIENTAL CENSUS.—The census of the northwestern provinces of India for 1865, embraces some very curious statements relative to the professions of large numbers of the population. There are two hundred and twenty-six who describe their calling as "flattering for gain." They are descendants of a class who, in the times of the ancient Mogul Court, preceded the dignataries of the palace, or foreign princes visiting the country, and sang loud praises of their titles and warlike acts.—There are also enumerated four charmers, eight hundred and fifty-one jesters, two hundred and fifty-nine mimics, one hundred and thirty-three hangmen, twenty-nine professed mourners, nearly four hundered and eighty thousand beggars, and thirty-five "sturdy beggars." The latter class are represented as residents of Agra, and belong to a peculiar sect. It is said they watch a well dressed person until he reaches a solitary locality, and then solicit alms in a threatening manner, with a penknife in one hand concealed from the eyes of others. Two-thirds of the population devote themselves to agricultural employments, and nearly a million and a quarter are connected with the cotton industry.—The matrimonial statistics exhibit the fact that the Hindoo maids are, according to their religeous ordinances, married off at ten years of age often earlier. The rule of age on the husband's side seems to be that he shall exceed his wife's by half as much, even twice as much, and he is not less than one-fourth older than she is at the period of marriage. It is believed that the great mortality among the adult population is largely attributable to these early marriages. In some castes there is a great disparity of female children, compared with the males, owing to a barberous practice of the parents, who often murder their female children as soon as they are born.—The Thakoors and Abiers are said to be especially addicted to this inhuman custom. But little care is manifested for girls, while no paternal sacrafice is too great for the welfare of the boys.

THE ALL PERVADING CHILL.—Philosophers are speculating as to the cause of the prevailing chill of the air this Spring. Some of them believing that over the bosom of the Atlantic are floating numerous icebergs of enormous dimensions, and others hold that for some cause mysterious to them, the gulf stream, which is one of the warmest of our east ocean coast, has been carried many miles further from the mainland than ever before in the recollection of man it has been known to run. Whatever the cause may be but few of the present generation ever knew a spring to be so cold as this.

INCORPORATED.—The Gold Run Tunnel and Mining Company filed articles of incorporation yesterday in the office of the Secretary of State. This company propose to construct a sluice tunnel and maintain tail flumes and under currents and carry on hydraulic and cement mining in all its branches, in the Gold Run Mining District. Capital stock, $500,000, in 5,000 shares of $100 each. The principal place of business will be located at Gold Run, Placer county. Trustees for the first three months—W. H. Kinder, A. B. Huyck, J. B. Taylor, A. Wentworth and U. S. Wolcott.—*Union.*

No visor doth become black villainy so well as soft and tender flattery.

INDIA GIRLS.—In certain parts of India a great number of girls are still murdered immediately after birth; and, indeed, this horrible custom is found not only among poor families, but in rich and very noble houses. The wife of an Indian rajah had had five daughters, and all immediately after birth, and at the father's command, and in conformity to custom, were put to death. At length the mother's love prompted her to lay some plan by which the next might be preserved; and accordingly, with the help of a trusty servant, the sixth child, also a girl, was secretly rescued. The father gave the usual bloody order, but without his knowledge it was not fulfilled, and the child was reared in secret. True, the mother never dared to see it, for fear of betraying it, and she died without ever having tasted the mother's inward joy of pressing her child but once to her bosom. In India the girls are remarkable for their beauty. Their eyes are black and brilliant, their features soft and full of expression. This maiden, too grew up to the full measure of youthful beauty, and her nurse and relatives consequently believed that they might now boldly present her to her father; if they could not rely on the father,s heart, yet her beautiful innocence, they thought, would secure her life; the more so as she was the perfect image of her deceased mother. A favorable moment was chosen to introduce to the father his child. Richly attired she approached the chief, fell dowh at his feet and exclamed: "My father!" And the father! For a moment love struggled hard in his bosom with his usual proud, hard feelings, but he drew his sword from its sheath, and with a blow struck off the head of the lovely child!

A brute in this office says it would be a fortunate thing if many of the girls in this country were disposed of in accordance with the India custom.

MEAN AS DIRT.—Up in Pennsylvania there resided, some years ago, a young limb of the law who was "courting" a lady in town of N——, distant some eight miles. Jackson as we will call him, was "rather close;" yet, as was known he had not succeeded in making a fortune out of the law, a neighboring farmer did not hesitate when one Sunday, Jackson applied to him for a horse and buggy to drive to N——to spend the Sunday, but at once furnished the team. So Sunday noon Jackson droge off in style, spent the evening and the Sabbath in N——with his ladylove, and drove back to town Monday. Upon returning the horse to this owner, he said:

"How much is it?"

"Oh, nothing; you'er welcome to the use you've made of him," was the reply.

"All right!" said Jackson; "then you owe me a dollar and a half," producing a bill which he had paid for the keeping of the horse in N——, which he had actually the "check" to present for payment. The farmer paid the bill, but Jackson never borrowed any more horses of him.

BUTTING WITH A DARKY.—About thirty-four or five yeais ago Tom Marshall and we went one night to the office of Dr. DeClary, then a well known physician. Tom had been drinking considerably, and was, in a glorious humor. We were all having a fine time, when the Doctor's little negro, about twelve years old, "black as midnight without moon," came grinning into the room. Tom said: "I am told that you little niggers can butt like billey goats," and threw himself down on all fours for an encounter. The little nigger instantly took the same position butted Tom, and knocked him entirely across the room. We thought Tom was killed, and he thought so him self; but, after a while, he was able to sit up, with only a terrible headache, that lasted twenty-four hours. The Doctor in his wrath, was about to kill the little nigger, but Tom generously interposed in favor of his conquer; gave him a quarter' and said: "D——d if ever I have a butting-match with a nigger again."

THE BENIFICENCE OF MIRTH.—There is nothing equal to a cheerful and even mirthful conversation, for restoring the tone of mind and body, when both have been overdone. Some great and good men, on whom very heavy toils and cares have been laid, manifests a constitutional tendency to relax into mirth when the work is over.—Narrow minds denounce the incongruity; large hearts own God's goodness in the fact, and rejoice in the wise provision made for prolonging useful lives. Mirth, after exhaustive toil, is one of nature's instinctive efforts to heal the part which has been racked or bruised. You cannot too sternly reprobate a frivolous life; but if the life be earnest for God or man, with here a layer of mirthfulness protruding, a soft bed to receive heavy cares, which otherwise would crush the spirit, to snari against the sports of mirth may be the easy and useless occupation of a small man, who cannot take in at one view the whole circumference of a large one.

A NEW style of bonnet may soon be expected to be in vogue. The manufacure of them has already commenced. They are made from manila pulp, moulded on a block, then spread with disolved shellac and covered with woollen flock or clothier's waste, and pressed till it has a velvet appearance. There is one objection to them, and that will be fatal to their popularity unless dealers are cunning enough to devise a way to remove it—they don't cost enough! The expense of manufacture does no exceed ten cents each.

OF all women she is most to be pitied who has a slow-paced suitor; he is worse than a retrograding one. How admirable, how prompt, how perfectly satisfactory was the conduct of the legendary puritan who rode up to the door of the house where dwelt the girl of his choice, and, having desired her to be called out to him, said, without circumlocution. "Rachel, the Lord sent me to marry thee!" when the girl answered with equal promptitude and devoutness, "The Lord's will be done!"

A LADY found occasion to call upon a dentist to have her tooth filled. Among those filled were too front ones, and when in a pleasant mood the lady's face shone with smiles, while polished gold glittered from the uper incisers. These were observed with admiration by her little niece who by and by seriously remarked, "Aunt Mary, I wish I had copper-toed teeth like yours."

A MEMBER of a certain theological seminary was so sensitive as to any suspicion of plagiarism that he never allowed himself to make the slightest quotation without giving his authority. On one occasion he commenced grace at breakfast thus:

"Lord, we thank Thee that we have been awakened from the sleep which a writer in the Edinburgh *Review* has called 'the image of death.'"

THE poor pittance of seventy years is not worth being a villain for. What matters if your neigubor lies in a splendid tomb? Sleep you in innocence.

STEALING.—We are surrounded by a party of petty thieves who plunder our miners' cabins, rob their claims, steal from our stores, relieve our hen roosts of their occupants, and in short stand ready to "nip" everything of the least value in the world. These thieves cannot be white men, as they seem to be no respecters of persons or circumstances, and suspicions point very directly to our Chinese population. To rid ourselves of these pests is a riddle for a philosopher, and one we do not intend to discuss, but is there no protection for miners, and others, who work hard for a mere pittance, and who are subjected to the annoyance, of having the result of day's, and even month's labor "gobbled up," at one "fell swoop" from their invidious foe, the sneak thieves. We know of several gentlemen in this place who have labored for years, and extracted quantities of gold from their mines, but who, from the fact of having their claims robbed so often, find themseves in debt and their claims nearly, if not completely, worked out, so far as the present level is concerned. Now these men pay their taxes and we think they are entitled to some protection. We have yet to hear of a single instance where the officers have exerted themselves in the least to find out who are the perpetrators of these lawless raids. Miners cannot leave their cabins alone at any time with any degree of safety whatever, neither can they leave their claims at night without losing an hour before they quit work in order to fill their sluices with dirt, so as keep these thieves from cleaning them up, and losing a similar period of time in the morning cleaning them out and getting them ready for work, thus losing nearly one-fourth of the day. Cannot this be remedied in a measure? The mining interests of this county are the most important of any in it, but it must lose its prestige if things pursue the same course they have for a few years past.

FIGHT.—We learn that a fight occured near the depot, on Monday last between a woman who inhabits a portion of God's footstool by sufferance, and a gentleman who is nameless. It seems that a little "onpleasantness" existed between them, and meeting the other day began to argue the matter, and the woman wishing to add force to her argument, undertook to relieve the gentleman of a portion of the surface of his face with her finger nails, but he refused to acknowledge the strength of her remarks, and being the better man of the two tumbled her on the floor. At this juncture the combatants were separated and the fighting, of course, suspended. The woman is said to be a capital hand to use billingsgate; being able to swear voluminously, and utter untold numbers of obscene words. We learn that although no fighting has occurred since, the parties are still belligerent and ready for action.

A FEW days since E. O. Tompkins, and some friends captured a skunk, near his house in Bear valley, and determined to have a shooting match, and accordingly the odorous little animal was let out from the box in which he was confined, and one of the gentlemen began shooting at him. The skunk ran under a shed, when the gentleman fired at him, and the ball struck something and glanced and hit Mr. Tompkins in the wrist, causing a painful wound. Dr. Nelson was sent for and he extracted the ball and dressed the wound.

THE following are the names of pupils attending the Dutch Flat Public School, who are on the Roll of Honor, for "well-doing," during the past month:

ONE day last week a Chinaman who was engaged in tending the flume in Mr. Tacff's claim, was struck by the stream from the pipe and knocked into the flume, and carried by the water to within a few feet of the shaft when he managed to catch hold of something, and save himself from instantaneous death.

WE learn that the party at Emigrant Gap, on last Tuesday, was a perfect success; about twenty ladies and fifty gentlemen were present, and the dancing was carried on with spirit, "from evening's close, till morning's dawn." Mr. Caffyn did his best to make his patrons comfortable and happy.

WE learn that the claim of Mr. O. Harkness, situated in Canyon Creek, cleaned up a short time since, after a run of seventeen days and nights, $4,700. The claim employs ten men, five on a shift, and uses five hundred and fifty inches of water.

CARR, MINER & HARRIMAN, cleaned up, in their claim at Gold Run, after a run of ten days and nights, $2,365. The company use three hundred and twenty-five inches of water and three pipes, and work three men on each shift, and have a pressure of one hundred and fifty feet.

WE are indebted to Messrs. Fouse & Farran, of Grass Valley, for a liberal supply of soda water. These gentlemen intend running a wagon to this place once a week, thus affording our saloon keepers an opportunity to stock their bars with that excellent summer beverage.

THE Central Pacific Railroad company have their track laid a distance of thirty-five miles beyond Reno.

THE GRAND ARMY OF WATERFALLS.—The telegraph announces the gratifying intelligence that Lopez has ordered the arming of 40,000 women for the protection of the Paraguayan frontiers. This announcement has undoubtedly brought joy to the hearts of those bold exponents of "women's rights," Elizabeth Cady Stanton, Lucy Stone and others of that ilk. At last one country, insignificant tho' it may be, has granted women the privilege of shouldering the musket, and marching to the front. Yet this good news must, in a measure, be mortifying to Elizabeth Cady, and Lucy, to think that they who have striven so long in the most enlightened country in the world, to obtain for their sex the rights of men, and to make themselves the leaders for all the earth, should be superseded by an unknown Irishwoman—Generaless Eliza Lynch, of a one-horse republic, who to-day, if the news is true, leads forty thousand brave women forward to victory. It is true they are to be mostly confined to the protetion of forts and arsenals, yet the labor will undoubtedly be severe on them. It is, truly, a triumph on the part of the softer sex, for if these forty thousand women prove that they are true Amazonian warriors, we may expect to hear of other nations filling up the ranks of their armies with soldiers of this class. All hail, proud Lopez! All hail, Generaless Eliza Lynch!! All hail, brave forty thousand!!!

WILL BE HERE.—The Grand Paris Exposition Circus, will perform here on next Monday evening. The reputation that this company bring with them can hardly be increased by any commendations from us. They have four star lady riders; the celebrated Donovan Bros., accomplished acrobats, are said to be hard to equal; besides they have an almost unlimited number of leapers, valuters, posturers, trapezists, etc. Sam Stickney Jr., whose world-wide reputation places him among the first clowns of the day, fills that position in this mamoth concern, and he will introduce his wonderful, and beautiful educated horse, Alla Pasha. J. Alaxander, the pioneer circus agent is their *avant courier*, and this fact alone should be suficient to assure the public of the merit of the company, as he makes it a rule never to announce for a bilk show.

GRANT CLUB.—On last Saturday evening a Grant Club was formed in this place. The following gentlemen were elected officers: President, N. W. Blanchard; Vice Presidents, J. H. Redstone and James T. Mathewson; Secretary, C. J. Brown; Treasure, J. T. Mathewson; Marshal, C. M. Kopp. The club adopted a constitution and code of laws. The regular meetings of the club are to be held fortnightly an Saturday evenings. The order of Freedom's Defenders, have joined the club *en masse*.

MAJOR STRATMAN has favored us with and assortment of newspapers, from his varied stock. We find among them *Harper's Weekly, Harper's Bazar, Illustrated News, New York Ledger, New York Weekly, Frank Leslie's Illustrated Newspaper, Etc., Etc.* Stratman's contributions are always acceptable.

THE miners about Iowa Hill are reported to be taking out more money than for several seasons past. The great drawback now, as it always has been, is the want of water; with a good supply of water Iowa Hill would be one of the most flourishing mining camps in the country.

THE Strawberry festival, for the benefit of the M. E. Church, on last Tuesday evening, was exceedingly successful. The total receipts were $80—twenty dollars of which were obtained from the bouquet table of the little Misses, Dovie Redstone and Hattie Hazard.

THE locomotive of the down train Thursday, blew out an oil cup and impaired the engine so as to compel the getting of another one to finish the trip with.

THE down train from Reno ran off the track, a short distance from that place, on Thursday, we learn, but did no damage further than a temporary delay.

A FEW days since, at Rocklyn, a dirt train ran onto a calf, and, it is said, scattered cars and dirt around pretty freely.

DEATH AT A WEDING PARTY.—The San Jose *Patriot* of June 22d has the following:

While Professor Charles Staderman, a distinguished musician of this city, was performing on the piano at a dancing party given last night at the Masonic and Odd Fellow Hall, in honor of the marriage of Charles M. Ehrlich to Miss Tiny Praskor, and while in the execution of a beautiful piece, the "Duchess of Gerolstein," he was seen to throw up his hands and fall forward upon the piano. Froth foamed from his mouth, and in a few moments life was extinct. This event, which so suddenly turned joyful gaiety into sadness, and so strangely taught us that "in the midst of life we are in death," occurred at about the hour of twelve o'clock. The unfortunate deceased was the victim of intemperate habits.

LOS ANGLOS.—Peter Donohue, of San Francisco, has contracted to construct a railroad from Los Anglos to San Pedro (the port) for $19,000 per mile.

Negotiations are pending between General Banning and the Los Anglos and Wilmington Railroad Company for the sale to said company of the water front at the latter place, together with the wharves and houses thereon.

SOME.—The Quincy *Union* of the 20th says:

A gentleman who has been there during the past week, and consequently should be well posted, informs us that in places on Clermont Hill, back of this town, the snow is at least forty feet deep.

LARGE WEEK'S WORK.—The Mendoceno *Herald* reports the sawing of 215,500 feet of lumber, in one week, at the Noyo mill, near Albion river, and claims that it is the largest week's work ever done on the coast.

SALNAVE the Haytian Dictator, is reported to be defending the capital of his country, by an army of seven men and three hundred women.

THE Santa Barbara *Post* says that the wool crop of that county, this Spring, will be over 500,000 pounds.

BRANCH PRISON.—The State prison directors have decided to erect a branch prison near the town of Folsom.

A BLAST of 240 kegs of powder, was put off by Western, Holmes & Co., at Gopher Hill, near Blue Tent, last Saturday.

AN Eastern paper has the following in regard to Mr. O. A. Hayford, brother of W. B. Hayford of Colfax, and J. Hayford, who enlisted in the Cal. Battalion, and went East and was captured with Norcross and others from this county, some of whom perished in Libby Prison and Belle Isle:

A few days after the battle of Gettysburg, at the Shepardstown fight, Mr. Orlando A. Hayford, a private, brave, patriotic and faithful, in Capt. I. G. Virgin's Company, of the Second Maine Cavalry, was wounded in the thigh, by a conical ball, from the rebel sharpshooters. He was soon after conveyed to a hospital in Baltimore, where he was operated upon by an army butcher, with a surgeon's commission, at two or three different times, in search of the ball, with no remarkable result, except the severing of an artery, which caused a complete paralysis of two of his toes. For nearly five years he has suffered almost everything within the capacity of human endurance, with saintly patience, his constitution gradually yielding to the daily discharge from his wound unhealed. Yesterday, May 10th, Prof. Wm. W. Greene, of Bowdoin College, was called to examine and once more operate, for the relief of the bold, suffering soldier, gradually but surely dying in the midst af a numerous kindred, and a host of admiring and sympathizing friends.

The event, for several days anticipated, was dreaded by the whole community, as the signal of his departure to join the regimental corps of those who bought our national integrity with their expiring breath; and a few only were willing to witness such a sunset of human life. About a dozen of his friends were admitted to the operating room; and at ten o'clock he was stretched upon the table, under the influence of ether, when Prof. Green, assisted by Dr. J. G. Pierce, by whose advice the matter was undertaken, and Dr. Maxim of Hartford, proceeded to search for the cause of distress. The thigh was laid open to the bone, several pieces chiseled off, and the ball followed up past the main artery, the pulsations of which were as distinctly manifest to the touch, as the exterior of the limb to the eye. Presently Prof. Green requested a pair of forceps which he projected into the wound he had made, and in a moment held up the ball, flattened and battered, before those who stood around, at which nine cheers leaped in silence from their hearts, while emotions of gratitude filled every bosom. After recovering from the influence of ether, the patient clasped the ball in his hand for twenty-four hours, in his joy at the result.

SACRAMENTO AND VICINITY AS SEEN FROM ABROAD.—Our attention has been called to an article in a late London Illustrated paper, entitled "Scenes on the Union Pacific Railroad, America," which for its inaccuracies is something novel, especially a portion of it relating to Sacramento—it being the "Central Pacific" which is illustrated, and not the "Union," though that is the heading. There are four cuts given, one presenting a "Viaduct over the great ravine near Sacramento city," probably the trestlework over the American river; another, a section of trestlework; a third, an indistinct view of "Cape Horn," looking as much like the famous cape as anything else, perhaps; but the last, "A street in Sacramento," it is so be hoped does not resemble anything dignified by the name of street in the wide world—certainly there is nothing like it here. The writer after going into a fit of enthusiasm over the "Viaduct" mentioned above, brings his reader "Whirling through a country until lately almost trackless to the blue waters of Sacramento Bay!" Judging by the closing paragraph, the author of the article was an intimate friend of Dundreary's brother, "Sam": "A short time and he is in the queer, half-formed, temporary looking streets of Sacramento city—streets which, like those of Sidney of thirty years ago, look as though the inhabitants had not quite determined whether they would stay or not. Here is the railway station, however, an accomplished fact, with a regular bureau, clock, porters, guards, luggage-vans and means of transport for horses, goods and caitle. At present the line runs right into the main street; but that is nothiug in Sacramento, or, indeed, in any part of America, for locomotives are playthings in that land, where everything in nature is on such a gigantic scale."—*Union.*

GRANT MEN.—We see that W. H. L. Campbell, a grain dealer of San Francisco, who formerly lived in Sacramento, gives in a larger income than the great Friedlander who bosses the markets, builds large warehouses and immense elevators, and appears to do a vast amount of business!—*Sacramento Bee.*

The income tax business in this county, according to the list published in the Sacramento *Union* some days ago, shows some as strange cases as that noticed by the *Bee.* We shall take occasion, at an early day, to notice some of the singularities.—*Grass Valley Union.*

After reading the above over several times, we are compelled to confess our inability to trace the relationship of the "income tax" to "Grant men." Will the *Union* enlighten us?

MAD.—The Legislature having failed to make the necessary appropriations for the Militia of the State, Gov. Haight has been compelled to issue orders to disband a number of companies and to have the arms returned to the State. This action of the Governor has riled a number of the loyal journals—they are awful mad about it.—Poor fellows, we sympathize with them.—*Quiney Union.*

The *Union* makes a misstatement; the loyal journals are not "mad" at Governor Haight, they are only a little bit disgusted to know that only companies whose antecedents were Republican, were dismissed from the service. We have not heard of a single company, known as Democratic, that has been disbanded. That is what the sensible journals of the State are angry at.

LENGTHY.—The Imperial letter from the Emperor of China, to the President of the United States measured over twenty-five feet of parchment. It was formaly presented to the Secretary of State on June 2d. Seward, it is thought, in answering it will see the Emperor's twenty-five feet, and go him seventy-five or a hundred better.

THE parsonage of the M. E. Church, at Grass Valley, was robbed on last Monday, of two watches, valued at $150, and about seven dollars in coin, so the *National* says.

THE Lower House, has voted to reduce the whisky tax to fifty cents per gallon. A Democratic exchange commenting on the above, congratulates its party adherants upon the prospects of having the costs of the campaign materially reduced.

GOV. MCCORMICK has been elected delegate to Congress from Arizona Territory, over Rush, his Democratic opponent.

LET no man deceive himself by thinking that the contagions of the soul are less than those of the body. They are yet greater; they sink deeper and creep on more suspectingly.

MET.—The Union State Central Committee met June 25th, to call a State Convention to nominate Electors and Members of Congress.

THE Oregon *Sentinel* says: "The 'niggers' in one of the Congressional Districts of Georgia have elected a Democrat to Congress by over 3,000 majority! We ask, shall he be admitted? Coming with his certificate of election by nigger votes; is it possible that the Democratic members in Congress who represent the 'White Man's' party will ever submit to his taking a seat among them? Will Brother Smith, triumphantly returned by the white votes of Oregon, ever contaminate his 'white' record by sitting in the same Congress with a fellow Democrat sent there by the nigger votes of a Georgia District? Will the Democracy, will they, we ask, ever submit to such an outrage on Democratic principles?"

LITTLE FRANK was taught that every one was made out of dust. One day he was watching the dust in the street as the wind whirled it in eddies. "What are you thinking of?" asked his mother. "Oh," said Frank, with a serious face, "I thought that the dust looked as though there was going to be another little boy.

GENERAL GRANT—EXTRACT FROM HON. H. C. DEMING'S LIFE OF THE GREAT CHIEFTAIN.—Judged by his mere words, Grant is nothing; judged by his actions, he can make no pretentions to brilliant genius, to profoundity of acquirement, to erudition in any department of human thought. Nature endowed him with a strength of will, an equal temper, a sound, practical, well-balanced understanding; and nature has contributed to develop and foster these natural endowments. From his West Point education, he derived substantial and useful knowledge, and the edge and discipline which scientific and mathematical study imparted to an intellect whose native temper was for hard service rather than glittering display. His experience in the Mexican war, in frontier life, and in rough civil employment, invigorated his practical resources, familiarized him with the various phases of American character, and trained him in the homely task of American life. His hard labor in the civil war strengthened and nerved the sturdy vigor of his understanding and will, endowed him with that self-reliance which can only be acquired in its plenitude by the habitual master of those difficulties which are pronounced insurmountable. His varied commerce with the world, and the vicissitudes of his career, have made him thoroughly acquainted with men, and he is not easily be, guiled or deceived. He has that stout independence of purpose which is not pliant to the purpose of others. There is in him naught of that vacillation or oscillation which is fatal to all earnest decision; but he makes up his mind rapidly, and forthwith bends every energy to the execution of its irreversible benests. This combination of endowments, accomplishments, experience, have invested him with that rare force and volume of power which conquers and commands success. He has strength of conviction, combined with deference for the popular will, and none of that inflexible self-sufficiency which discards the advice and scorns the opinion of others. Justice is with him a predominating attribute. He is devoted to the right, without professing any supercilious contempt for the expedient. He is faithful in his friendships; sincere in his professions; superior to all envey; generous in his appreciation and commendation of others; truthful, honorable, upright in all his dealings and converse with his fellowmen; and ardent and tender in his domestic affections.

No public man who ever lived has illustrated himself less by language, either oral or written. Grant must be estimated by his actions alone; for what he says will never aid your comprehension of the man. He talks, and talks well, but his conversation reveals merely the surface of his mind; and what of genuine resources is in its depths, you must investigate by the process I have indicated. No one doubts that he has the tenacity of will; but I defy you to find any satisfactory proof of it in any of his sayings. No one disputes his patriotism: but what ardent harangue has he ever uttered? No one fails to recognize his manly friendship for Sherman; but it is not demonstrated by the word or manner. No one disbelieves in his courage; but you will search in vain to discover it from his utterances. What there is in him as a warrior, you must study from the way in which he translated his thoughts into deeds; for you will never learn it by his speeches. What of administrative power there is in him, you must learn from the record; for you will be deceived by his professions. Meeting every emergency in the varied control he has exercised over the turbulent States, and disorganized societies by the most appropriate measure of redress, he yet disclaims ability to govern. He is, in short, a man of action, and not of words. He believes in the essential equality of all mankind, and that the time is now for its embodiment into government; but we must learn this from the zealous discharge of duties which contribute to that end, instead of from any pledges which he has indorsed. He believes that what is called the "policy of the nation" should receive its direction and guidance from the Legislative, rather than the Executive branch of the government; but this is taught by his deeds, and not by his declarations, unless it may be infered from the avowal, "No theory of my own will ever stand in the way of executing any order I may receive from those in authority over me."

THE DEATH OF GENERAL KIT CARSON.—From Fort Lyon, Colorado, under date of the 24th ult., we have by letter the details of Carson's death. He expired at that post on the 23d ult., at 4:35 o'clock in the evening, in consequence of the rupture of an artery in the throat. A few weeks previous, his condition becoming dangerous, he was removed from his house to the quarters of Major Tilton, the Post Surgeon, who was attending him. On the 24th the body was laid in state in the office of the Adjutant. He was temporarily buried on the evening of that day, it being understood that the remains would subsequently be removed to Taos, New Mexico, to be interred with those of Carson's wife, who died there only a few weeks before his demise. Carson's last words indicated the full possession of his mental faculties, the consciousness of his situation, and the strong social feeling which characterized him throughout life. The words were a simple "good-by."

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natu result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

SARSAPARILLIAN!
(PREPARED FROM VACUO.)
*The Curative Principle of Sarsaparilla enters largely into the composition of*
R. R. R.
RESOLVENT.

*One Bottle of Resolvent Better than Ten Large Bottles of Sarsaparilla.*

**One Bottle will Purify the Blood, and Expel Corruption from the Body!**

So swift is this remedy in entering into the circulation, that it has been detected in the blood and urine in six minutes after it has been taken.

☞ 1 BETTER THAN 10 ☜

R. R. R. Resolvent cures with astonishing rapidity every form of Chronic, Scrofulous and Skin Diseases, and exterminates all corruption from the human system.

One bottle of Dr. Radway's Renovating Resolvent contains more of the active curative principles of the best Jamaica Sarsaparilla, (Sarsaparillian,) than Ten of the largest size bottles of the mixture sold under the name of Sarsaparilla.

The process adopted by Dr. Radway in securing extracts (prepared in vacuo,) of Medicinal Roots, Plants, Herbs, and other vegetables possessing great curative properties over Scrofula, Chronic, Syphilic and skin diseases, that enters into the composition of the Renovating Resolvent, produces only ONE OUNCE of the pure extract out of 20 lbs of crude roots. The Inert matter that enters so generally in the large bottle mixtures and prepared under the officinal or pharmacopeia formula, is, by Dr. Radway's process, cast aside as rubbish.

One teaspoonful of the Resolvent is sufficient for a dose for all Skin, Salt Rheum, Pimples, Blotches, Sores and Eruptions of the Skin, Humors in the Blood, &c.

One teaspoonful, three times a day, will, in a few days, make the Blood pure, the Skin clear, the Eyes bright, the Complexion smooth and transparent, the Hair strong, and remove all Sores, Pimples, Blotches, Pustules, Tetters, Cankers, &c., from the Head, Face, Neck, Mouth and Skin. It is pleasant to take, and the dose is small.

The first dose that is taken seizes on the disease and commences its work of resolving away all diseased deposits, Purifying the Blood, and driving corruption from the system.

The Renovating, Resolvent, if used in any of the following named complaints, will positively cure the patient:

**Skin Diseases, Caries of the Bones, Humors in the Blood, Constitutional, Chronic and Scrofulous Diseases, Scrofula, Syphilis, Fever, Ulcers, Sores, Salt Rheum, Erysipelas, Rickets, Scald Head, Cankers, Sore Legs, White Swellings, Glandular Swellings, Boils, Nodes, Sore Ears, Sore Eyes, Strumous Discharges from the Ear, Opthalmia, Itch, Constitutional Debility, Skin Eruptions, Wasting and Decay of the Body, Pimples and Blotches, Tumors, Cancerous Affections, Dyspepsia, Water Brash, Neuralgia, Chronic Rheumatism and Gout, Diseases of the Kidneys, Bladder, Urethra, Strictures, Difficulty of Passing Water, Calculous Deposits &c.**

ALARMING INCREASE OF BLADDER, KIDNEY and CALCULOUS DISEASES.

The annual reports of the Health Commissioners of different cities, show a great increase of deaths from diseases of the Kidneys and Urinary Organs—RADWAY'S RENOVATING RESOLVENT is the only remedy *that has dissolved* calculous concretion.

Its SOLVENT, *diuretic, lithontriptic* and *tonic* properties exceed that of any medicine in the world; it readily assimilates with the fluids, and promotes their exit through the Kidneys, Urethra and Bladder, removing calculous obstructions, and correcting all derangements of these organs.

*So swift is this remedy in passing into the circulation, that it has been detected in the urine in six minutes after it has been taken;* by adding to the liquid when cold a few pieces of starch, then a few drops of nitric acid, the liquid will change to a blue color. When brick dust, or a thick white deposit, like the white of an egg, (albumen,) is detected in the vessel, or bloody discharges from the urethra, or micturating in drops, accompanied by a burning or scalding pain—the RESOLVENT should be used and R. R. RELIEF rubbed on the spine, &c.

RADWAY'S PILLS being an aperient, soothing, and tonic laxative, are the only purgative medicine safe to administer in these difficulties; their mild soothing and healing properties produce evacuations without irritating the mucous membranes of the bowels, kidneys, ureter, bladder, &c., or causing straining when at stool.

Price of Resolvent, $1 per bottle, or 6 for $5. Pills 25 cts. R. R. Releif, 50 cts. per bottle. Principal Depot, 87 Maiden Lane, N. Y. Sold by all Druggists and Country Merchants.

REDINGTON & O.'S
**ESSENCE OF JAMAICA GINGER.**

**THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs**

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

GRÄEFENBERG
**UTERINE CATHOLICON**

If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects cause by a relaxation of the outlet of the bladder. It is a most successful remedy for the Gravel and other diseases of the Kidneys and Bladder, and for female diseases is unequalled. The *Catholicon* uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppressions, Incontinence of Urine, Bloating, Dropsical Swellings, and all diseases of pregnancy.—The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to as healthy a state as those of childhood and youth, so that patients who have used the *Graefenberg Company's Uterine Catholicon* cannot sufficiently express their gratitude for the relief afforded.

People of sense and udgment have learned to use
**PLANTATION BITTERS.**

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, etc., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old are delighted with its effects.

The first trial always has a marked effect.

No change in diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France for the enormous price of its weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, etc.

CASCARILLA BARK.—For Diarrhœa, Colic and diseases of the stomach and bowels.

DANDELION.—For Inflammation of the Loins, and Dropsical Affections.

CAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism etc.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-budge, orange, charaway, coriander, snake-root, etc.

S.T-1860-X.

Another wonderful ingredient, of Spanish origin imparting beauty to the complexion and brilliancy to the mind, is yet unknown too the commerce of the world, and we with child its name for the present.

With this recipe before the community, and evidence of effects meeting them on all sides, the success of DR. DRAKE stands founded upon the rock of truth. Almost every family has some cases of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

**MEXICAN MUSTANG LINIMENT**

The merits of this Liniment are well known. Its effects are instantaneous, soothing and wonderful.

Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLCWING:

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns; Bruises, Sores, Rheumatism, etc., and all say it acts like magic."

J. W. HEWITT,
Foreman for American, Wells, Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.

Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the private U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. *Look closely!*

Sold by all Druggists and Stores, at 25 and 50 cents and $1.

**MEXICAN**
**MUSTANG**
**LINIMENT.**

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing
RHEUMATISM, SORE THROAT,
STIFF AND WEAK JOINTS, BURNS,
BRUISES, EAR ACHE,
SPRAINS, SWELLINGS,
FRESH CUTS OR WOUNDS,
Or any other complaints requiring an external application.

FOR HORSES

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-Bone, Wind-Galls, Bruises, Strains, etc.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. WESTBROOK, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

## CAMPAIGN SONG.

The following song and chorus was sung at the Chicago Convention, on the announcement of the nomination of General Grant. :

We'll rally again to the standard we bore
O'erbattle fields crimson and gory,
Shouting "Hail to the Chief" who in freedom's fierce war
Hath covered that banner with glory.

CHORUS.

Then rally again, then rally again,
With the soldier, and sailor, and bummer,
And we'll fight it out here, on the old Union line,
No odds if it takes us all Summer.

We'll rally again, by the side of the men
Who breasted the conflict's fierce rattle,
And they'll find us all true, who were true to them then,
And bade them "God speed" in the battle.
Then rally again, then rally again, etc.

We'll rally again, and that "flag of the free"
Shall stay where our heroes have placed it,
And ne'er shall they govern, on land or on sea,
Whose treason hath spurned or disgraced it.
Then rally again, then rally again, etc.

We'll rally again, and our motto shall be,
Whatever the nation that bore us,
God bless that old banner, "the flag of the free,"
And all who would die with it o'er us.
Then rally again, then rally again, etc.

ANTIDOTE FOR ENNUI.—The following antidote for ennui, so prevalent in the sultry summer months, is highly reccommended :

R.

| Sps. vin. Otard | zi. |
| Saccharine whitewm mashum | q. s. |
| Aqu congealibus | q. s. |
| Mintum someum | vi sprigs |
| Shakeum likellum | q. s. |
| Strawum elongatus | 1. |
| Suckum threwum | |

Then sing :

There am a rose in yonder glen,
Itshums the gaze of other men.
And if you're dry, why drink again.

Shouting :

Mary had a little lamb—
Oh! mother, I've come home to drink.
But Mary didn't care. Adam
Ate Eve's apple quicker'n a wink!

WRONG BOOTS.—A domestic presened to his master one morning, a pair of boots, the leg of one much longer than the other.

"How comes it, Michael that these boots are not of the same length?"

"I rally don't know, sir; but what bothers me is, that the other pair, which is down stairs, is in the same fix."

A PHILADELPHIAN has invented a railway car, in the shape of an iron cylinder, strongly ribbed to prevent crushing, and thickly padded so that in case of upsetting down an embankment, the passengers will have rather a pleasant time than otherwise.

## THE SCIENCE OF HEALTH!

**Every Man His Own Physician.**

**HOLLOWAY'S PILLS,**

AND

**HOLLOWAY'S OINTMENT!**

**Disorders of the Stomach, Liver and Bowels.**

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, fiental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

**Erysipelas and Salt Rheum,**

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

**Bad Legs, Old Sores, and Ulcers.**

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

**Eruptions on the Skin.**

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

**Female Complaints.**

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

**Piles and Fistula.**

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

**Both the Ointment and Pills should be used in the following cases :**

| | | |
|---|---|---|
| Bunions, | Piles, | Sore Legs, |
| Burns, | Rheumatism, | Sore Breasts, |
| Chilblains, | Ringworm, | Sore Heads, |
| Fistula, | Salt Rheum, | Sore Throats, |
| Gout | Scalds, | Sprains, |
| Stiff Joints, | Tetter, | Ulcers, |
| Lumbago, | Skin Diseases | Venereal Sores, |
| Sores of all kinds, | Mercurial Eruptions, | |
| Swelled Glands, | Wounds of all kinds, | |

**CAUTION.**—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* Sold at the manufactory of Professor HOLLOWAY 80 Maiden Lane, New York and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

☞ There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot and box.

FOR ONE DOLLAR.

The Merchants' and Manufacturers'

**Jewelry Association**

Calls your attention to the fact of its being the largest and most popular Jewelry Association in United States. The business is and always has been conducted in the most candid and honorable manner. Our rapidly increasing trade is a sure guarantee of the appreciation of our patrons for this method of obtaining rich, elegant and costly goods. The sudden stagnation of trade in Europe, owing to the late German war, and recent disastrous financial crisis in Europe, has caused the failure of a large number of jewelry houses in London and Paris, obliging them to sell their goods at a great sacrafice, in some instances less than one third the cost of manufacturing. We have lately purchased very largely of these bankrupt goods, at such extremely low prices that we can afford to send away finer goods, and give better chances to draw the most valuable prizes than any other establishment doing a similar busindss. OUR AIM IS TO PLEASE, and we respectfully solicit your patronage, as we are confident of giving the utmost satisfaction. During the past year we have forwarded a number of the most valuable prizes to all parts of the country. Those who patronize us will receive the full value of their money, as no article on our list is worth less than one dollar, retail, and there are no blanks. Parties dealing with us may depend on having prompt returns, and the article drawn will be immediately sent to any address by return mail or express.

The following parties have recently drawn valuable prizes from the Merchants' and Manufacturers' Jewelry Association, and have kindly allowed use of their names.

Frederick V. Browne, Esq., Treasury Department, Washington, D. C., Piano, value, $450; Miss Anna L. Frost, Waverly Terrace, N. Y. city, Ladies' Gold Enameled Diamond Set watch—value, $300; William B. ## HELMBOLD'S BUCHU.

**THE ONLY KNOWN REMEDY**

FOR

DIABETES,

IRRITATION OF THE NECK OF THE BLADDER, INFLAMATION OF THE KIDNEYS CATARRH OF THE BLADDER, STRAGUARY OR PAINFUL URINATING.

For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.

*PHYSICIANS AND OTHERS*

PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Extract of Buchu, is composed of Buchu, Cubebs, and Juniper Berries, selected with great care, prepared in vacuo and according to rules of

**Pharmacy and Chemistry.**

These ingredients are known as the most valuable Diuretics afforded.

**A DIURETIC**

is that which acts upon the kidneys.

HELMBOLD'S EXTRACT BUCHU

ACTS GENTLY

Is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

FOR THE SATISFACTION OF ALL

See Medical Properties contained in the Dispensatory of the United States, of which the following is a correct copy:

"BUCHU. Its odor is strong, diffusive, and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, morbid irritation of the Bladder and Urethr, diseases of the Prostrate, and Retention or the Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy."

[DR. KEYSER is a physician of over thirty years' experience, and a graduate of the Jefferson Medical College and of the University of Medicine and Surgery of Philadelphia.]

MR. H. T. HELMBOLD:

DEAR SIR:—In regard to the question asked me as to my opinion about BUCHU, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such inedicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgement, is warranted by the facts.

I have seen and used, as stated before, every form of BUCHU—the powdered leaves the simple decoction, tincture, fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years experience ought, I think, to give me the right to judge of its merits, and with ut prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other proprietary compound of whatever name, or any other Buchu.

Respectfully yours, &c.,

**THIS CELEBRATED INSTITUTE**

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

**Do not be satisfied with partial cures**

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine, WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

**Cures are Always Guaranteed.**

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, or NO PAY REQUIRED, at the

**Private Medical Institute,**

**Seminal Weakness or Spermatorrhœa.**

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

**Important to Females.**

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

## FRENCH MEDICAL OFFICE

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramen streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pains, bness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

**Female Monthly Pills.**

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.

All communications confidential je28-1y
